Iheb Jabri

Profile

I am an ambitious and hardworking person, with vast skills and experience in web development and mobile applications.

In addition, I am able to manage several daily tasks with competence and to work well under pressure.

A key strength is communication; build strong relationships with people in order to achieve the best results.

Recently, I obtained a higher technician diploma from the Higher Institute of Technological Studies of Béja and I am now fully employed by BluePen Labs as a Full Stack Developer.

Education

Senior technician — **Sep 2017 - Jul 2020**
Higher Institute of Technological Studies of Béja, Béja
Higher technician diploma at the Higher Institute of Technological Studies of Béja

Programming course — **2017 - Present**
Online
University courses were not enough for me to work, and I discovered this when I was looking for a freelance job, so most of what I acquired was online courses.

Bachelor — **2013 - 2017**
Bechir Sfar Secondary School, Amdoun
Bachelor– Degree in computer Science from Bechir Sfar Secondary School

Employment

Full Stack Developer — **Nov 2020 - Present**
BluePen Labs, Tunis
The cooperation with a team made up of various experiences has increased my experience in dealing with the problems that may be facing us and how to solve them with the best results.

Freelance — **Jan 2020 - Oct 2020**
Mostaql
Working as a freelance has added to me the property of mastering many programming languages and it is doubling my chances of obtaining a client in addition to mastering the work and obtaining customer satisfaction in order to obtain a good evaluation and feedback. other projects of this client.
